

Bespoke items manufactured in our UK factory

All the items below can be manufactured for your brand either using your fabrics or digital designs.

It is usual for us to supply linings, trims and zips. Customers usually supply their brand labels, and we can produce care labels if required.

Full pre retail packing service can be offered including attaching swingtickets and producing barcode labels.

We can manufacture in a wide range of fabric qualities, but we are not set up to work with leather or very thick/stiff fabrics. We do not produce handbags or rucksacks.

We can arrange for your fabrics to be pu coated in either a gloss or matt finish.

We are happy to store our customers fabric and manufacture in advance for our customers to call off when required.

Email enquiries to sales@vagabondproducts.co.uk

Image	Product	Notes
